Dear Dr.Gromelski

Allow me to introduce my self to you. My name is Tamer El-Raghy, I work with Prof. Barsoum on the ternary carbide; Ti₃SiC₂.

My understanding is that the bulk sample of Ti₃SiC₂ passed your test in KOH. Since the process of making a solid glove mold made of bulk Ti₃SiC₂ needs time and money, we're willing to provide you with smaller samples of other shape, condoms for example, to be tested. If you agree with this idea, please send us drawings and we'll move from there.

I look forward to receiving your reply.

Sincerely,

Tamer
